

Moulded Shapes

MOULDED SHAPES

Ceetak is a leading UK designer, developer and supplier of seals and sealing solutions, offering customised design and production of special purpose rubber seals and gaskets.

We can offer a free design and low cost prototype facility by our team of technical engineers who can provide technical advice and practical assistance on many issues, from suitability of materials and sealing profiles to groove sizes, tolerances and assembly techniques.

Our low cost prototype tooling and sample batch production enables the design to prove function at minimum cost.

Our manufacturing facilities are ISO9001 and QS9000 approved to ensure high quality seal production. Special documentation e.g. PPAP's are available upon request.

A range of materials are available to application requirements. These include NBR, Fluorocarbon, Silicone, EPDM, Flurosilicone, and HNBR in various shore hardness.

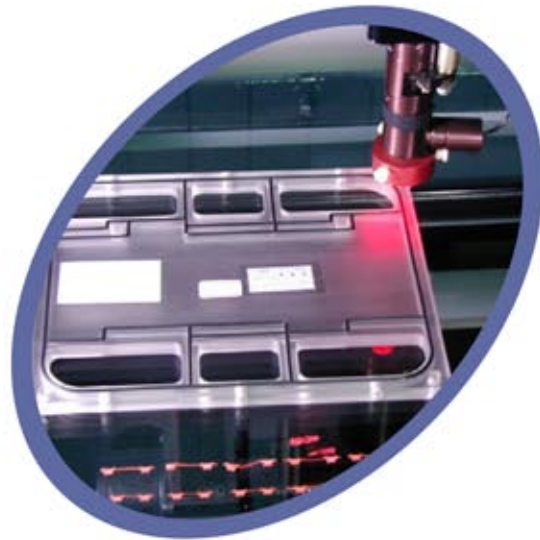

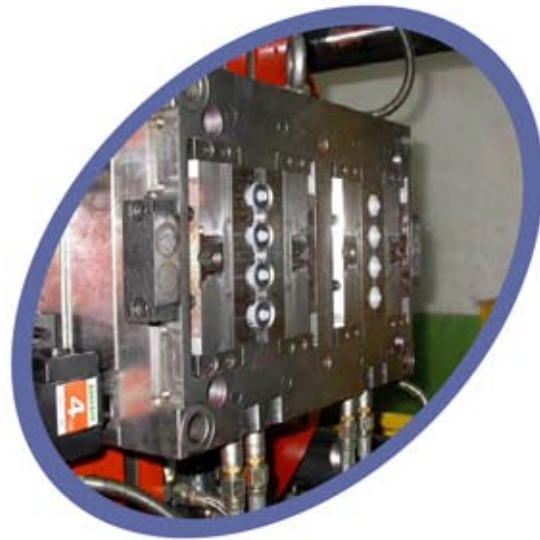

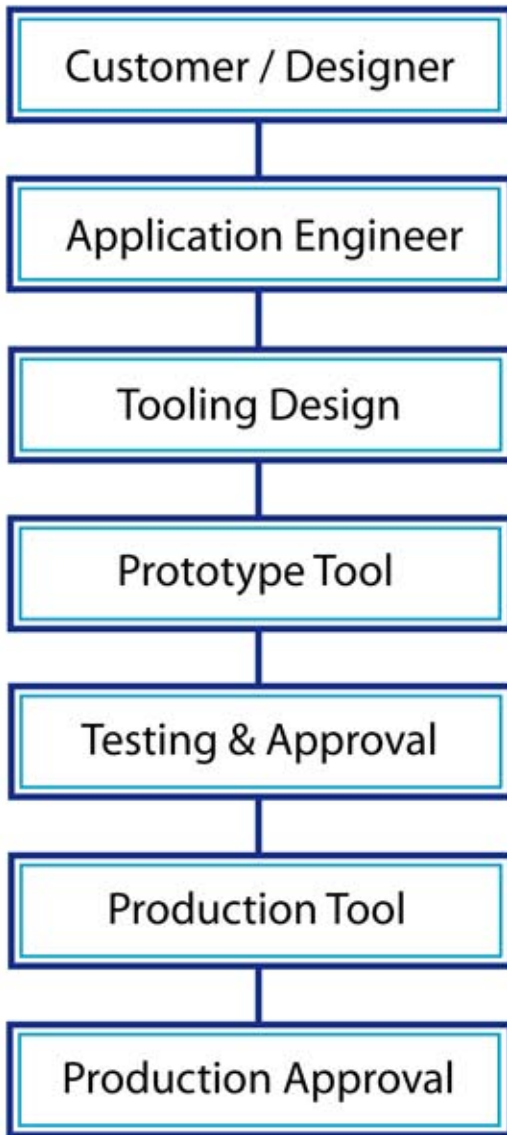

High/low temperature materials and those manufactured with approvals for special applications are also available.

Once new products are designed, and prototypes tested and approved, we can offer high volume production facilities to improve cost benefits and reduce lead times.

Benefits to the customer:

- Unrivalled technical support/design advice
- ISO9001 and QS9000 approvals
- Fast prototyping
- Low cost prototype tooling
- Competitive prices
- Unique seal design

| General Tolerances | | | | | | | | |
