

# Ceetak Sealing Solutions: Precision Moulded Gaskets

## Total Sealing Solutions from the UK's leading supplier

Ceetak is a leading UK designer, developer and supplier of sealing solutions. Our products are used throughout industry; from the most technically demanding applications, to high quality/high volume industrial components.

At Ceetak, we are more than just a supplier. Our core philosophy is to add real value to your business through innovative and truly cost effective engineered sealing solutions.

## Complete design and production service

Our highly experienced team of application engineers are equipped to design a tailor-made gasket to specifically suit your application, whilst working closely with our manufacturing facilities to produce the perfect sealing solution.

## Material selection and compounding

Our gaskets are available for manufacture in a wide range of standard materials including: NBR, Fluorocarbon, Silicone, Fluorosilicone, Neoprene, EPDM, HNBR, ACM. For more technically demanding applications our dedicated materials specialist is on-hand to discuss the development of new materials.

## Quality Assurance

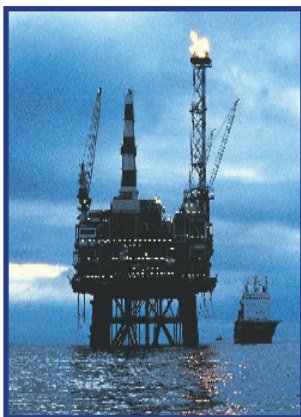

We are ISO9001:2008 and ISO14001:2004 approved and our manufacturing facilities are ISO9001 and TS16949 approved.

If required we can offer a full PPAP service encompassing ISIR's, material certification and manufacturing process flow analysis - our application engineers can discuss individual quality requirements

## Cost effective sealing solutions

Our low cost prototype tooling and sample batch production allows design to be proven for function with minimal costs.

High volume production cells provide cost benefits and shorten lead times.

## Ceetak Ltd Gasket moulding service

- Unrivalled technical support & design advice
- Tailormade gaskets for specific applications
- Wide range of materials and specialist compounding
- ISO9001, ISO14001 and TS16949 approvals
  - Rapid Prototyping
- Low cost prototype tooling
  - Competitive pricing
